## **Local solicitation with the dead**

Locals are upset at the new uprising in solicitation with the dead in our local cemetery. Local news papers in the area, magazine companies, and Jehovah Witness's have been taking the names of the deceased and putting their names on subscriptions and on logs for the church.

Companies are doing this to make their companies seem bigger then they actually are. They are using this as an ego boost and in an attempt to try and get recognized and gain some more respect.

This has upset many people who have family members who are buried there and who's names have ended up being used. This is illegal for false advertisement, freedom or religion, and for using their names with out consent.

There has been a lot of trials around this from out-raged citizens about their dead family members names being used. Charges against the local magazine have reached over 1 million dollars now. This has over whelmed our court and low profile cases, like traffic violations have been postponed or even dropped depending on the severity.

We will keep you informed as we find out more at a later date
